CONTENTS

R. Skuodienė, V. Matyžiūtė. Assessment of an abandoned grassland community and the soil seed bank of a hilly relief .................................................................3

T. V. Abramova, N. P. Buchkina. Short-term effect of heavy precipitation on nutrient leaching from arable sandy loam soil amended with fertiliser and biochar ..................11

I. V. Kosakivska, L. V. Voytenko, V. A. Vasyuk, M. M. Shcherbatiuk. Effect of pre-sowing priming of seeds with exogenous abscisic acid on endogenous hormonal balance of spelt wheat under heat stress ........................................21

D. radić, V. Karličić, J. Đorđević, J. Jovičić-Petrović, I. Kljujev, B. Lalević, V. Račević. Soil yeasts promoting plant growth: benefits for the development of common wheat and white mustard ...........................................27

H. H. Orak, M. Karamać, R. Amarowicz, A. Orak, M. A. Janiak, H. S. Tenikecier. Variations of genotypes of Vicia species as influenced by seed phenolic compounds and antioxidant activity ..............................................................35

B. S. Didani, R. Dumlupinar. Common bean seedlings show increased tolerance to cool temperatures when treated with progesterone, β-oestradiol, abscisic acid, and salicylic acid ..................................................................................43

L. Loshyna, O. Bulko, M. Kuchuk. Adventitious regeneration of blackberry and raspberry shoots and the assessment of the LED-lighting impact ...........................................49

S. Aras, H. Keles, E. Bozkurt. Iron deficiency impacts chlorophyll biosynthesis, leaf cell expansion, xylem development and physiology of Prunus persica grafted onto rootstocks Garnem and GF 677 .................................................................55

I. Pánková, V. Krejzar. Bacterial canker pathogens present in the materials of Prunus armeniaca propagation ........................................................................................................71

I. Müller, J. Kesselring, V. Vrotniakiene, J. Jatkauskas. Inoculation of whole-plant maize with viable lactic acid bacteria: effects on silage fermentation, aerobic stability and performance of dairy cows ..............................................................................81

SHORT COMMUNICATION
V. Tamutis, V. Sruoga, L. Česonienė, R. Daubaras. The first appearance of the citrus flower moth (Prays citri (Millière, 1873)) (Lepidoptera: Praydidae) in Lithuania .....................89

IN MEMORIAM Dangira Šidlauskienė .................................................................94
